

**2025–2026
Indigenous Handbook
York University**

Boozhoo, She:kon, Tunngasugit, Tawnshi, Kwe, Welcome!

We recognize that many Indigenous Nations have longstanding relationships with the territories upon which York University campuses are located that precede the establishment of York University. York University acknowledges its presence on the traditional territory of many Indigenous Nations. The area known as Tkaronto has been care taken by the Anishinabek Nation, the Haudenosaunee Confederacy and the Huron-Wendat. It is now home to many First Nations, Inuit and Métis communities. We acknowledge the current treaty holders, the Mississaugas of the Credit First Nation. This territory is subject of the Dish with One Spoon Wampum Belt Covenant, an agreement to peaceably share and care for the Great Lakes region. Learn more about land acknowledgments and York's Indigenous protocols at go.yorku.ca/protocols-indg.

Community members gather inside Skennen'kó:wa Gamig (The House of Great Peace) at York University's Keele Campus.

Amazing things happen when diverse communities work together to create positive change.

Many roads lead to success. At York, we understand and value the varied experiences that brought you to us. We'll guide your discovery of the opportunities your degree can offer and empower you to reach your career and life goals.

Centre for Indigenous Student Services (CISS)

CISS provides a communal space that meets the needs of our diverse Indigenous students and community. Our staff are committed to the success of 350+ self-identified Indigenous learners at York University. go.yorku.ca/ciss-indg

Meet the Team

A knowledgeable team of Indigenous staff provide culturally appropriate support services to help you achieve academic success. Students also have the opportunity to reclaim or enhance their knowledge and awareness of their Indigenous identities, culture and heritage. We welcome all Indigenous students from any of York's campuses.

Keep in Touch

- **Location:** 246 York Lanes (Keele Campus)
- **Phone inquiries:** (416) 736-5571
- **Email inquiries:** cissinfo@yorku.ca

Opportunities to Connect

Cultural Workshops

Facilitated by Indigenous community artisans year-round, workshops draw upon traditional teachings. Learn how to make ribbon skirts, moccasins, gauntlet mittens, hand drums and beading.

Visiting Elders Program

Elders and Traditional Knowledge Keepers share Indigenous knowledge, teachings and wisdom. Join in sharing circles, one-on-one sessions and ceremonies based on Indigenous protocols.

Indigenous Peer Mentorship Program

This student-driven mentoring program offers a space for Indigenous learners to meet and co-create, co-develop and sustain a learning environment of peer leaders. Meet with members in one-on-one or small group settings and attend community events.

Events

- Orientation Days for Incoming Indigenous Students
- Welcome Feast
- End-of-Term Celebration
- Graduation and Year-End Celebration

Student Resources

- Elders / Traditional Knowledge Keepers
- Peer support
- Personal counselling
- Advocacy
- Cultural workshops
- Writing support
- Library research consultations
- Referrals to community resources
- Financial assistance information
- One-on-one counselling with Traditional Counsellor

“The Centre for Indigenous Student Services (CISS) was a huge support for me in completing my studies as I am the first person in my family to attend university. I’m part of a community that has given me and my children a sense of belonging through cultural teachings and ceremonies. Now my kids know that they too can attend university one day.”

Lisa Maracle (she/her), BA '18, Multicultural and Indigenous Studies, Faculty of Liberal Arts and Professional Studies

Previous Studies: Bridging Program for Women

Indigenous Student Success

We believe Indigenous student success is achieved by living in balance with one's spiritual, emotional, physical and mental realities.

“As a Latino/Mestizo/Indigenous person, my experience at York University has been remarkable because it has allowed me to build networks and be part of different communities. Through this community building, the University provided me with the tools to create and develop a project that is impacting Indigenous youth: the Indigenous Friends Mobile App.”

Alejandro Mayoral Baños (he/him), PhD '21, Communication & Culture, Faculty of Graduate Studies
MA '14, Interdisciplinary Studies
Executive Director, Indigenous Friends Association

The Indigenous Student Association at York (ISAY)

is a student-run group under the York Federation of Students. ISAY's mandate is to advocate for Indigenous students, create cultural programming, social events and community outreach. ISAY has hosted events, such as: Rattle Making, Metis Culture Workshop, Inuit Storytelling, First Nations Teachings, Afro-Indigenous Open Mic Night, 2S Sharing Circle, Missing and Murdered Indigenous Women Pin Bead Workshop, Care Packages, Spring Food Basket and more.

Osgoode Indigenous Students' Association (OISA)

promotes legal education for Indigenous people in a culturally appropriate learning environment. OISA also supports Osgoode Hall Law School's advocacy and initiatives for the inclusion of Indigenous perspectives, historical context, community experiences, knowledge, healing, cultural wisdom and insights.

Computers, Laptops and Printing

Members of the Centre for Indigenous Student Services can sign out laptops and access computers, a printer, a scanner, a photocopier and lockers.

Skennen'kó:wa Gamig

ᐱᑲᑲᑦᐱᑦ ᑲᑲᑦ

Skennen'kó:wa Gamig (The House of Great Peace) is a renovated log cabin nestled in a wooded area on the Keele Campus. It is a dedicated gathering space for the York Indigenous community to gather, learn, support and share teachings. Gamig is equipped with a full kitchen, gathering space, a screened-in sunroom and a patio. Students may use Gamig for studying, hosting events and cultural reclamation. A Tipi is also located on the site.

The name Skennen'kó:wa Gamig comes from both the Mohawk and Anishinaabe languages. Skennen'kó:wa means "Great Peace," a cultural teaching that refers to the basis of the Haudenosaunee Confederacy. The Great Peace are the laws and responsibilities that Haudenosaunee people aspire to live by. Gamig is an Anishinaabemowin word that means "home" or "house." We see the house as a space where students, staff and faculty can "come home" to a peaceful environment on their journey through university life.

Skennen'kó:wa Gamig is located on York University's Keele campus, next to the York Tipi and Osgoode Hall Law School.

A Community of Changemakers

York students, faculty and alumni are united in our commitment to inclusion, community engagement and social and economic justice.

Creating Positive Change

Great things happen when we work together to right the future. Learn more about how York is a driving force for positive change. go.yorku.ca/why-york-indg

Creating a just and sustainable future. York is responding to the global climate crisis through the Faculty of Environmental & Urban Change. York researchers are working on a diverse range of projects with local and global partners, including the Ecological Footprint Initiative, which tracks human consumption of renewable resources around the world.

Building a more inclusive future. By providing \$1 million in support of Indigenous research and working with refugees at the Centre for Refugee Studies for more than 35 years, York is working to reduce inequality. About 16,000 of York University's students are the first in their family to attend university.

York University ranks among the world's top post-secondary institutions in supporting the United Nations' global sustainable development goals in the *Times Higher Education Impact Rankings*:

- **#2 in the world** for no poverty
- **#13 in the world** for sustainable cities and communities
- **#33 in the world** for reduced inequalities

Indigeneity at York

Current Initiatives

The **Wüléelham programs** in the Faculty of Education are rooted in Indigenous knowledge and practices to promote learning from Indigenous peoples' experiences and perspectives. Wüléelham — translated from Lenâpé as “make good tracks” — offers Indigenous students opportunities to connect with Indigenous knowledge, history and culture.

The Indigenous Studies program in the Faculty of Liberal Arts & Professional Studies centres Indigenous community engagement inside and outside the classroom. Course offerings examine traditional knowledge and culture, treaties and the Indian Act, First Nations music, literature and cinema, Indigenous-Black relations and urban and Métis perspectives.

The Indigenous Council at York oversees the educational requirements and services that meet the needs of Indigenous learners on campus. The Council supports relationships between Indigenous communities and York University by advocating for Indigenous peoples to facilitate access to higher education.

Assistant Professor of Sociology Maya Chacaby recently developed a multiplayer online role-playing game, *Biskaabiiyaang: The Quest for the Language*, to support players in learning traditional stories and vocabulary. The game aims to protect Anishinaabemowin (the Ojibwe language) and support Indigenous students through their trauma.

Find out more at go.yorku.ca/learning-indg.

Ahqahizu sculpture, York University's Keele Campus
Artists: Ruben Komangapik and Koomuatuk (Kuzy) Curley

As of September 2021, **Professor Susan D. Dion** is the inaugural Associate Vice-President, Indigenous Initiatives. Dion is a Lenape and Potawatomi scholar with mixed Irish and French ancestry. She draws on her expertise, experience and energy to drive the further implementation of York University's Indigenous Framework and support the implementation of the Decolonization of Research Administration Report recommendations.

A Space for Everyone

York's campuses are spaces where bold ideas take shape and lifelong connections are made. Here you'll find your home away from home, a welcoming community of friends and your new favourite study spots and restaurants.

Travel to, from and between campuses with ease

3
public transit stations

8,200+
parking spaces

York-operated shuttle buses

between our three
campuses and free
for students

VanGO Mobility Service

to help students with
disabilities travel from
classes on our Keele Campus

24/7 access to bicycles

across our Glendon and
Keele Campuses through
three Bike Share stations

Keele Campus

Walk the scenic paths of our **large-scale campus**, a thriving community hub enhanced by its location in the Greater Toronto and Hamilton Area (GTHA), featuring athletic facilities, studios, labs, residences, restaurants and green spaces.

Glendon Campus

Located in the heart of Toronto, Glendon is our **founding campus** where globally-focused programs, research and hands-on learning opportunities develop the changemakers of tomorrow.

Markham Campus

Academic programs and research at our **newest campus** revolve around the core themes of technology and entrepreneurship and how they are driving innovation.

In the Heart of a Vibrant City

York's Keele Campus is located just a subway ride away from downtown Toronto or uptown Vaughan Metropolitan Centre. With two subway stations on our Keele Campus, as well as a network of buses, GO transit and light rail transit, you can easily explore the diverse neighbourhoods, parks, sporting events and concerts in the Greater Toronto & Hamilton Area (GTHA).

With this partnership, York students will have access to exclusive networking opportunities with the Toronto Raptors, one-of-a-kind experiences and other engagements.

OFFICIAL UNIVERSITY PARTNER OF THE TORONTO RAPTORS

Transfer and Mature Students

Whether you've been out of school for some time, or are looking to transfer from another institution, York offers flexible learning options and pathways to help you continue your educational journey.

Transfer Students

Am I a Transfer Student?

A transfer student has completed prior post-secondary education at an accredited college or university, or is currently studying at one.

How Do I Transfer My Credits?

If you completed any courses at a post-secondary institution, we will assess you for transfer credits at the time of admission. You will receive a preliminary assessment of transfer credits on your offer of admission, if eligible.

How Are Transfer Credits Assessed?

Transfer credits are assessed based on:

- academic equivalency to York courses;
- the number of courses you have completed;
- grades achieved; and
- how your previous post-secondary studies fit with the program to which you've been admitted.

Depending on the program you are admitted to, you may be required to complete additional courses to meet program-specific requirements.

We will provide you with a transfer credit statement once you have accepted our offer of admission. It will list the number and type of York credits you are eligible to receive toward the program to which you have been admitted.

To find out more about transfer pathways and credit assessment, visit go.yorku.ca/tr-indg.

Pathway for Ontario College Students

York's articulation agreements offer a simplified, guaranteed transfer process for college transfer students.

York has agreements with six different Ontario colleges, which guarantee students a set amount of transfer credits for the completion of a specific program.

go.yorku.ca/articulation-indg

Curious About Your Credits?

Check out the [Course-to-Course Transfer Guide](#) to find out how many transfer credits may count toward your degree program. go.yorku.ca/ontransfer-indg

Mature Students

Are You a Mature Student?

The definition of a mature student can vary widely depending on self-identification, academic background and, of course, age. At York, we consider you to be a mature student if you:

- are at least 20 years old by the end of the calendar year when you are admitted to York;
- have been out of full-time, high-school studies for at least two years or have returned to upgrade after a two-year absence; or
- have completed less than one year of college- or university-level courses.

Helping You Begin

York provides a number of bridging and academic transition programs that help students acquire the background needed for university study, build educational capacity and encourage a diverse student population.

Learn more at go.yorku.ca/bridging-indg.

Tailored Support for Mature Students

Starting university after being away from school for an extended time is a big step. York provides dedicated support services to guide you along the way, that consider your academic, professional and personal development.

Atkinson Centre for Mature & Part-time Students

Get support as a mature student through orientation, transition and student success workshops and a peer mentor program designed to support the needs of adult learners.

York University Mature Students Organization

Participate in social and community events throughout the year to make the most of your student experience at York.

Automatic Entrance Scholarships for Transfer and Mature Students

For a complete list and details about scholarships and awards for transfer and mature students, visit go.yorku.ca/scholarships-indg.

Note: Conditions apply.

Award Name	Value of Award (s)
York University Mature Student Entrance Scholarship	\$3,000
Provost's Award	\$500 – \$1,000
Dr. R. Lenton Scholarship for Mature Students	\$1,000

Go Beyond the Classroom

York offers students unique learning experiences in and out of the classroom, meaningful job opportunities and career coaching. Create positive change in your community, workforce and the world, as you build skills that give you a competitive career advantage.

Jumpstart Your Career

Get Hands-On Experience

York provides many unique opportunities to build career skills and connections throughout your degree, from co-op to research courses, to industry practicum. Visit our program webpages for more information on experiential learning activities specific to your Faculty or area.

go.yorku.ca/programs-indg

Prepare for the Future

York's Career Centre helps you explore careers and prepare for your job search through one-to-one advising, resumé writing, interview prep, career fairs, networking events and access to a central job board and alumni connections during your studies and up to two years after you graduate.

go.yorku.ca/careerprep-indg

Tackle the Problems of Today

Gain valuable experience doing work that matters through the Cross-Campus Capstone Classroom (C4). Hone your critical, creative and strategic thinking abilities by working on multidisciplinary teams with students from across the University, designing effective solutions to real-world challenges. C4 has connected 1,200+ students with over 100 community and industry partners.

Did YU Know?

York University alumni have been hired by globally recognized employers, such as:

- Apple
- Deloitte
- Google
- NASA
- Sanofi
- Tesla
- Amazon
- TikTok

Last Year:

37,445

experiential education opportunities were available to York students.

14,450

employment opportunities* were available to York students.

* including part-time, full-time, internship, co-op and new graduate opportunities.

"I chose York for its hands-on experience, community and co-op opportunities. The university's emphasis on practical learning in a diverse community aligned perfectly with my goals. Working in a pharmaceutical company as a co-op student allowed me to apply and expand the theoretical knowledge gained during my studies."

Samin Tavakoli (she/her), 4th year Biochemistry

Your Partners in Success

“The Atkinson Centre for Mature & Part-Time Students has supported me during my post-secondary journey by connecting me to foundational resources, which helped me build confidence and gain new skills in order to be successful.”

Clifton Grant (he/him), 3rd year Law & Society; Mature Student Peer Mentor; Robert J. Tiffin Student Leadership Award recipient '24
go.yorku.ca/clifton-indg

Athletics & Recreation is for every level of athlete, with varsity athletics, sport clubs, intramurals, drop-in activities (sports & aquatics), plus indoor/outdoor fitness programs and spaces.

Atkinson Centre for Mature & Part-time Students supports your success through orientations, success workshops, campus referrals and peer mentor programming geared to adult learners.

Career Centre supports students and new graduates (up to two years after graduation) with the development of career self-management skills through 1-on-1 career counselling and job search/employment advising appointments, drop-in career advising, job postings, career fairs, networking events and more.

Learning Skills Services helps you develop academic skills like time management, study habits and maintaining school-life balance.

The Lee Wiggins Childcare Centre and the **York University Cooperative Daycare Centre** provide childcare and daycare services for parents studying at our Keele Campus.

Libraries: In addition to the support of an **Indigenous Teaching & Learning Librarian**, the libraries offer online or in-person research help for your assignments; equipment and support for multimedia projects; great study spaces and access to millions of books, ebooks, articles, films, music and more. To connect with an Indigenous Teaching & Learning Librarian, contact Cora Coady (ccoady@yorku.ca).

Student Accessibility Services (SAS)

provides academic support and accommodations to students living with disabilities (mental health, learning, attention, neurodiversity, physical/mobility, sensory (hearing & vision), medical condition) that impact their academic participation. Students are encouraged to connect with SAS upon accepting their offer of admission to ensure timely implementation of accommodations and support services.

The Centre for Student Community & Leadership Development (SCLD)

offers programming to new students as they transition into university, oversees recognition and support for student organizations and communities and provides opportunities for students to strengthen their leadership skills.

Student Counselling, Health & Well-being

offers in-person, walk-in counselling or virtual, same-day appointments, as well as in-person/virtual ongoing counselling to the Keele, Glendon and Markham campuses. They also offer peer-led workshops, emergency support, mental health consultation and more.

York University Mature Students Organization

provides orientation and social events throughout the year to make sure you have the best possible experience at York.

Writing Centre: Our Academic Centres offer one-to-one appointments, group sessions and workshops for all York students in writing and language development. Additional supports for English Language Learners (ELL) and students registered with SAS are available.

School of the Arts, Media, Performance & Design (AMPD)

yorku.ca/discover/ampd

Creativity is your commodity. The York University School of the Arts, Media, Performance & Design (AMPD) is home to 30+ competitive degree programs, 300,000 square feet of premier art facilities and a network of 20,000 alumni leading in industries worldwide. Known for 50 years of innovative, comprehensive, and hands-on arts education, AMPD is a place for inclusive excellence, purposeful curiosity, and sustained career mobility.

“As an interdisciplinary artist and educator, York provides me with so many opportunities to grow, to travel the world, and to reclaim my cultural identity. I would not be where I am, doing what I love, without the support of CISS and York.”

Marissa Magneson (she/her), PhD '26, Education: Language, Culture and Teaching, BFA Honours '18, Music, Cree-Métis, Métis Nation of Ontario; Arts Educator, Freelance Photographer, Workshop Facilitator

Cinema & Media Arts (BA)

F W S

Drive innovation in traditional and new media industries with in-depth knowledge of cinematic culture, technology, and aesthetics. You will use specialized knowledge of global cinemas, moving-image technologies, and cultural theory to shape the media of tomorrow. Explore the business of film with hands-on placement opportunities in marketing and production, film curating, and festival programming at companies like Blue Ant Media, the Toronto International Film Festival (TIFF) and the National Film Board of Canada. **Career paths include film/media festival programmer, film, television or media producer, media critic.**

Note: For students interested in a teaching career, the York University Faculty of Education offers a concurrent education program where students can earn their Bachelor of Arts (BA) in conjunction with a Bachelor of Education (BEd).

Cinema & Media Arts - Media Arts (BFA)

F W S
Advance the evolution of new media art forms like social media, mobile experiences and immersive environments by combining digital creation and media culture studies. Explore and create new media content, including virtual production, 3D animation, virtual, augmented and extended reality (XR), interactive documentary, social media for

community engagement and transmedia crossing film and game experiences on-site in BetaSpace co-working lab. **Career paths include social media strategist, digital content manager, television, film or video producer.**

Cinema & Media Arts - Production (BFA)

F S
Create game-changing stories using all facets of filmmaking, including digital and film formats. Channel your creativity through hands-on technical practice and build your portfolio with mentorship from award-winning cinematography, editing, sound, directing, producing and more professionals. Utilizing industry-standard production and post-production facilities, you can

ICONS LEGEND: F Fall entry W Winter entry S Summer entry Some online courses Some evening/weekend courses
 Practicum Co-op or internship Class-focused Community-focused Faculty research

showcase your films at exhibitions, competitions and showcases.

Career paths include film director, cinematographer and producer.

Cinema & Media Arts -

Screenwriting (BFA)

Write your stories in Canada's only undergraduate Screenwriting Degree Program with immersive training in writing short narrative fiction, feature film screenplays, episodic scripts and transmedia narratives. Develop your professional portfolio with original material while collaborating with film production and media arts students, award-winning professors and film and television industry leaders. With small hands-on classes and community-focused workshops, you will develop your distinctive voice as a screenwriter and creative leader. **Career paths include writing for film, television and other motion media, script reader, media critic.**

Creative Technologies (BFA)

Offered at Markham Campus

Interested in applied careers in digital arts, with practical experience on the ground working with community and industry? Combine arts and innovative technologies to transform society with AMPD Creative Technologies. Anchored in a passion for social justice, you will refract the world's most pressing contemporary challenges through your unique, creative lens to forge a better tomorrow. **Career paths include creative technologist, digital content creator, interactive exhibition designer and programming director.**

Dance (BFA)

Jump into choreography and performance to become a community-minded dancer trained in modern, contemporary and global forms. Grow outside the classroom with year-round performance opportunities, industry placements and collaborative research projects to become a dance leader and advocate

of today and tomorrow. **Career paths include: choreographer, performer, movement therapist.**

Note: For students interested in a teaching career, York University Faculty of Education offers a concurrent education program where students can earn their Bachelor of Fine Arts (BFA) in conjunction with a Bachelor of Education (BEd).

Design (BDes)

Define tomorrow's design strategies while training at the intersection of information design, human-computer interaction and computation. You will learn to manage and communicate complex information through an interdisciplinary curriculum for meaningful human experiences in our increasingly visual world. Experience small class sizes, state-of-the-art facilities and placements with leading design firms, technology start-ups and cultural institutions like Facebook, Google, IBM and more. Upper-year concentrations include Interaction Design (UX/UI), Information Design, Visual Communication Design, Design Theory, History and Criticism (Design Studies). **Career paths include graphic designer, art director, corporate branding specialist.**

Digital Media (BA)

Fuse arts, media and engineering to prepare for an emerging career in game design, interactive media and digital product development. Using code and programming as tools for creative expression, you will lead across industries with imaginative designs for the next generation of gaming technology, original mobile apps, immersive and 3D

ICONS LEGEND:  Fall entry  Winter entry  Summer entry  Some online courses  Some evening/weekend courses
 Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

environments, data visualization, interactive performance and so much more. Gain professional experience through the Technology Internship Program and public showings at Digifest, Ontario Science Centre and Interaccess.

Career paths include game developer, user experience architect, new media artist. *Note: Offered in collaboration with the York University School of the Arts, Media, Performance & Design (AMPD) and the Lassonde School of Engineering.*

Integrative Arts (BFA)

Can't decide on just one creative pathway? You don't have to at AMPD. Adapt with the times as a well-rounded artist with expertise across disciplines and creative fields. Channel your passion for multiple art forms toward addressing societal challenges in local and global communities. Focused on the intersection of arts, entrepreneurship and technology, you will learn through collaboration inside and outside the classroom. Build your unique curriculum by pursuing personal interests across AMPD programs, including course options from Cinema & Media Arts, Digital Media, Dance, Music, Theatre and Visual Art & Art History.

Music (BFA, BA)

Bring your own unique musical style into harmony with the global world of music to create sounds that are distinctly you. Through collaboration across disciplines, fine-tune your passion with individual attention from internationally acclaimed performers in world-class facilities. Perform solo or with groups in year-round showcases, including World Music Week, Jazz Week Festival and Live Lunch sessions. **Career paths include musician, composer/arranger, music director and music teacher.**

Note: For students interested in a teaching career, the York University Faculty of Education offers a concurrent education program where students can earn their BFA or BA in conjunction with a Bachelor of Education (BEd).

Theatre (BA, BFA)

Join the next generation of storytellers acting, producing, directing and designing live performance to shape our ever-changing society. After a foundational first year in BA Theatre or BFA Performance Creation, branch into Production & Design or Acting & Performance to hone your skills and techniques. Realize your creations on stage with Theatre@York's season of performances including playGround and the Devised Theatre Festival.

Career paths include performer, artistic director, technical director.

Theatre - Performance Creation

(BFA)    

This program offers a broad and versatile approach to performance creation, preparing you to move fluidly across artistic disciplines and take on a range of roles in collaborative performance settings. Ideal for those passionate about producing sophisticated and impactful performances, the program emphasizes meaningful engagement with social justice and sustainability. By auditioning at the end of the first year, you can join the Acting & Performance cohort, allowing you to follow a flexible path that combines performance training with studies in stagecraft, playwriting, directing and more. **Career Paths include performer, artistic director, technical director, stage designer, playwright, producer, production manager, stage manager.**

Visual Arts - Art History (BA)

Immerse yourself in the global world of art, architecture, art criticism and curatorial studies to create change at the intersections of visual art, society and culture. You will explore practical applications of museum and gallery studies off-campus with industry placements at established galleries like the Art Gallery of Ontario and the Royal Ontario Museum. In the classroom, you will learn under the instruction of established artists with exhibition curation opportunities and hands-on access to original works of art by icons including Andy Warhol and Jack Bush. **Career paths include curator, conservator, museum educator.**

Visual Arts - Studio (BFA)

Mould your artistic style by casting, carving, painting and printing across diverse mediums in Canada's premier arts creation facilities. The studio-based program prepares you for a career creating change across industries as a practicing artist, educator, curator, entrepreneur or researcher. With guidance from world-renowned artists, display works at curated public art exhibitions on campus, across the city, and in downtown Toronto. **Career paths include artist, curator, art dealer.**

Note: For students interested in a teaching career, the York University Faculty of Education offers a concurrent education program where students can earn their Bachelor of Arts (BA) in conjunction with a Bachelor of Education (BEd).

Faculty of Education

yorku.ca/discover/edu

Leaders supporting future leaders in education. The Faculty of Education provides an environment where students are encouraged to challenge the status quo to uncover new possibilities in the advancement of education. We support our students to become bold, principled and insightful leaders, because social justice won't be realized by following the conventional. As one of the top faculties of education in the country, we offer a broad range of programs, research initiatives and community partnerships, all of which embody our commitment to practices of equity, diversity, inclusion and decolonization.

Waaban Indigenous Teacher Education

Complete a BEd degree and earn an Ontario College of Teachers certification in this intensive 16-month program.

Waaban is an Anishinabe (Ojibwa) word meaning it is tomorrow. It signifies a commitment to a holistic program of teaching and learning that acknowledges the impacts of colonialism and draws on the wisdom of ancestral teachings and contemporary leaders to put Indigenous futures into Indigenous hands. Rooted in Indigenous Thought, Waaban provides traditional and contemporary teachings from Indigenous Elders, educators and community leaders. Students will be introduced to cultural and community resources and have opportunities to learn from and with Indigenous educators. Waaban is in collaboration with the Toronto District School Board Indigenous Education Centre and will admit its next cohort of students to begin in Spring 2025.

Waaban Indigenous Teacher Education (BEd)

Study and discuss contemporary urban, rural and reserve perspectives and teachings from a diversity of nations. You will be introduced to cultural and community resources and have opportunities to learn from and with Indigenous educators. Graduates will be certified to teach in Ontario in one of the following teaching panels:

- **Primary-Junior** (JK to Grade 6); and
- **Junior-Intermediate** (Grade 4 to Grade 10)

Education (BEd)

Take advantage of the most diverse undergraduate education curriculum in Ontario, with the Bachelor of Education and Bachelor of Education in Technological Education degree programs. Seize opportunities in French language-education, Jewish teacher education, Indigenous education and a formal Specialization in International Education. Complete qualifications in one of the most extensive ranges of Intermediate-Senior teachable subjects in the province. In our Concurrent BEd program, you will work toward your Education degree while completing

almost any other York undergraduate degree. You can apply from high school (for select Faculties). Completing this program leads to a recommendation to the Ontario College of Teachers for a teaching certificate. Students who have already completed an undergraduate degree or are currently in their last year of post-secondary studies can apply to the two-year full-time Consecutive BEd program. **Career paths include: teacher, principal, education policy adviser**

Education (French as a Second Language) (BEd)

The BEd program with a concentration in French as a Second Language (FSL) is delivered at the Glendon campus. The language of instruction is primarily French, so students are well prepared to teach in French Immersion classrooms. Students who are admitted in this program must also be enrolled at Glendon College. Graduates of the BEd program will be recommended to the Ontario College of Teachers (OCT) for certification. **Career paths include: teacher, French teacher.**

Educational Studies (BA)

Through learning placements and other experiential opportunities, you will gain the skills and knowledge needed to educate outside the traditional classroom in roles that bridge sectors. Study how and why people learn and what roles education plays in today's society. **Career paths include: community educator, consultant, corporate trainer, governmental and non-governmental agency trainer.**

Faculty of Environmental & Urban Change

yorku.ca/discover/euc

York University is home to the only Faculty of Environmental and Urban Change (EUC) in the world. Offering 21st century education in a student-centric, research-intensive and inclusive community, EUC prepares career ready graduates to respond to the most pressing challenges facing humanity and the planet. Become a changemaker and choose a program that will prepare you with the fundamental knowledge, critical thinking skills, hands-on experience and global perspectives necessary to achieve personal success and make positive change.

“I chose the Faculty of Environmental & Urban Change at York University for its interdisciplinary approach. My program covers a broad range of topics that pertain to ecology, economics, and sociology, all of which are at the forefront of the climate crisis. I’m exactly where I want to be and studying what I need, in order to be equipped to tackle these issues in my future career.”

Ryan Faria-Wong (he/him), BES '24, Sustainable Environmental Management

Certificates Offered

- Climate Solutions and Sustainable Energy*
- Geomatics: Geographic Information Systems (GIS) & Remote Sensing*

* Can take in conjunction with degree or as a stand-alone program

Cities, Regions, Planning (BES)

F W S

We live in an urban world. Cities around the globe face pressing social and environmental challenges linked to climate change, emerging infectious disease, global migration, and inequalities and racial divides. But cities are also the places where solutions can be found. Learn to apply inclusive and sustainable planning, consulting skills, governance and political procedures, and activist tools to manage urban growth, provide infrastructure, integrate newcomers

and mitigate environmental impacts.

Career paths include: urban, land use or transportation planner; policy advisor; LEED technical coordinator.

Environmental Arts and Justice

(BES) F W S

Create solutions for a just and equitable world. Address our global environmental challenges through various ways of knowing, thinking and creating, by exploring policy and legal possibilities and by hands-on and professional artistic practice. Explore Indigenous and environmental thought, political, cultural

ICONS LEGEND: F Fall entry W Winter entry S Summer entry Some online courses Some evening/weekend courses Practicum Co-op or internship Class-focused Community-focused Faculty research

The Faculty's Las Nubes EcoCampus

and educational practice. Through creativity, collaboration, critical analysis, and hands-on community engagement, learn how we can envision and realize a just and sustainable future. **Career paths include: environmental lawyer, policy developer, artist, designer.**

Environmental Science (BSc)

F W S     

Environmental Science explores the impact of human activities on our planet through the study of biology, chemistry, physics and physical geography. You will gain a scientific foundation in the biological and physical sciences needed to address urgent environmental and urban challenges, and generate and communicate solutions. Explore the science of environmental systems through two streams: Environmental Dynamics and Biodiversity & Conservation. Benefit from internship opportunities, field- and lab-based exercises, and optional global experiences at York University's Las Nubes EcoCampus. **Career paths include: aquatic scientist, conservationist, environmental control specialist.**

Global Geography (BA)

F W S     

Global Geography explores how human societies and physical environments are deeply connected and constantly changing. You will learn how to analyze global processes including urbanization, uneven development and inequality, migration and identity formation, and environmental change. The field allows students to combine approaches from the social sciences, humanities and physical sciences to identify solutions to some of the world's most pressing challenges. **Career paths include: geo-demographic and environmental analyst, global geography and environmental educator, conservation planner.**

Sustainable Environmental Management (BES)

F W S     

Explore some of the most critical issues facing the earth today: the climate crisis, the loss of biodiversity and ecosystem services, waste management, energy consumption and sustainable solutions. In the Sustainable Environmental Management

program, you will investigate how the environment and natural resources are managed, and how the world can transition toward more just and sustainable systems. You will learn key problem-solving, innovation and holistic strategies, combined with an understanding of policy, social dynamics with applied aspects of environmental science and technology. **Career paths include: environmental outreach and stewardship coordinator, energy analyst, policy advisor.**

Undeclared Major (BA, BES)

F W S    

Give yourself time to think about your major while exploring your interest in making a better world for people and the planet. Experience university level study while taking first-year foundational courses offered in Environmental & Urban Change before choosing which major is right for your future career as a changemaker.

** All undergraduate programs offer co-op and work placements.*

Glendon

yorku.ca/discover/glendon

Stand out from the crowd. At Glendon, we offer a highly personalized experience to ensure your success and well-being. Our graduates are changemakers in Toronto and around the globe in fields such as the public sector, finance, education, healthcare, digital marketing, human rights, international development and translation. At Glendon, you develop your language and cross-cultural skills. The study of an additional language is a requirement once you are at Glendon, but not a requirement to enrol in most of our programs.

Pour des renseignements en français, veuillez consulter glendon.yorku.ca/decouvrir

“In a world full of opportunities and potential pathways, Glendon has provided me with countless experiences that have helped me grow. Through an alumni mentorship program, my time studying abroad and as a student leader, I have learned my strengths, passions and fulfilled my goals.”

Alexis Skopelitis (she/her), 5th year French Studies and Concurrent Education

Certificates Offered

- Creative Writing Across Contexts*
- Discipline of Teaching English as an International Language (D-TEIL)*
- Law & Social Thought
- Proficiency in Spanish for Business and Professional Communication*
- Public History*
- Refugee & Migration Studies*
- Sexuality Studies*
- Spanish-English/English-Spanish Translation*
- Technical & Professional Communication*

* Available as a stand-alone certificate for existing degree holders.

NEW: Indigenous Language Option

Self-identified Indigenous students can take Anishinaabemowin at Glendon Campus or Mohawk at the Keele Campus as their 6.00 credits to fulfill the language requirements of a Glendon BA degree.

Biology / Biologie

(BSc, iBSc)     

Explore major topics in the first and only BSc Biology program in southern Ontario with courses in English and French. Study conservation biology, ecology and animal behaviour with direct access to a living lab in our own forested “backyard.” **Career paths include: marine biologist, research associate, environmental planning specialist.**

ICONS LEGEND:  Fall entry  Winter entry  Summer entry  Some online courses  Some evening/weekend courses
 Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

Business Economics / Économie et commerce (BA, iBA)

F W ⚙️ 📁 🧑🏫 🔍

Have a business and management mindset but also want to perfect your people skills? Our program combines business administration and economics with a special emphasis on international business and humanities. Learn fundamental principles of economic theory, and managerial and accounting skills for the business world. Get practical work experience in capital investment agencies, corporations, banks, accounting firms, the insurance industry and more. Several courses accredited by CPA of Ontario. **Career paths include: marketing manager, accountant, commodity trader.**

Communications / Communications (BA, iBA)

F W ⚙️ 📁 🧑🏫 🔍

Join a Communications program that is one-of-a-kind in Canada and be prepared to meet a global industry need for communications professionals

with an international perspective. Take courses in three concentrations: Communication, Culture & Society, Organizations & Communication and Technology & Communication.

Career paths include: public relations specialist, advertising executive, journalist.

Economics / Science économique (BA, iBA) F W ⚙️ 📁 🧑🏫 🔍

Why are some countries rich and others poor? Why is rent so much higher in Toronto than in Sudbury? Our globally focused Economics degree gives you insights into these types of issues, preparing you for careers in law, politics, diplomacy, government and more. You'll learn from professors with strong international backgrounds, real-world experience and a wide variety of specializations, including microeconomics, immigration, international trade law, natural resources and the environment.

Career paths include: financial analyst, investment banker, accountant.

English / Anglais (BA, iBA)

F W 📁 🧑🏫 🔍

Learn about literature from a multitude of countries and time periods or concentrate on dramatic texts from international English-speaking countries – the choice is yours! Is writing your passion? Pair your degree with a Certificate in Technical and Professional Communication. If you're interested in teaching English, the Discipline of Teaching English as an International Language (D-TEIL) Certificate is a great option; students travel to Cuba for three weeks to teach English. Certificate in Creative Writing Across Contexts available. **Career paths include: English teacher, editor/copywriter, author.**

Ethics and Political Philosophy / Éthique et philosophie politique

(BA, iBA) F W 📁 🧑🏫 🔍

Sharpen your ability to analyze, to question accepted beliefs and to express ideas clearly. Critical thinking skills acquired in studying Philosophy are highly transferable: students consistently outperform others on standardized exams for law, medical, business and graduate schools. Discussions in our small classes will help you develop a better understanding of different points of view and to become a better thinker, debater and writer. **Career paths include: lawyer, political strategist, activist.**

First Year Exploration / Majeure non déterminée

(BA) F W 🌙

Transition smoothly to university with a foundational year designed to give you the skills you need to succeed academically and choose your major by the end of your first year. Get ready

ICONS LEGEND: F Fall entry W Winter entry S Summer entry 📁 Some online courses 🌙 Some evening/weekend courses
⚙️ Practicum 📁 Co-op or internship 📁 Class-focused 🧑🏫 Community-focused 🔍 Faculty research

for careers in various fields, from government and law to business and communications. **Career paths will depend on the major chosen: liberal arts will help you develop skills required for jobs in government, law, business, communications and more.**

French Studies / Études françaises (BA, iBA)

Study some of the greatest literary works of the French-speaking world; trace the development of the language, the nuances of pronunciation, the variety of accents; improve your level of spoken and written French and better understand the cultures attached to the French language. All this, with highly accomplished professors from la francophonie internationale as part of the Glendon Faculty. Live the full experience through an exchange with partner universities including La Sorbonne in Paris. **Career paths include: editor/journalist, interpreter, teacher.**

Global History and Justice / Histoire mondiale et justice

(BA, iBA)

Our History program gives you the insights to connect past events to the present in meaningful ways, developing critical thinking skills and research skills. These abilities can be key when searching for work in positions such as teacher, lawyer, documentary filmmaker, journalist, diplomat and more. Our professors are leaders in their fields; from specialists in transnational migrations, revolutions in Latin American, European political history and much more. **Career paths include: teacher, historian, documentary filmmaker.**

International Studies & Business Administration Dual Degree / Double diplôme en études internationales et administration des affaires

(iBA/BBA)

This dual degree consists of 2 years studying in our flagship International Studies program and 2 years at France's #1 business incubator, the emLyon business school. Earn a business education with a liberal arts background compounded with Glendon's trademark excellence in French-language training and international experience. You'll have access to the resources of Canada's 3rd largest university, Glendon's small campus experience, and the expertise of emLyon's prestigious business program. **Career paths include: entrepreneur, international business journalist, charity founder.**

International Studies / Études internationales (BA, iBA)

The first of its kind in Canada, our program offers a deeper understanding of how governments, law, politics, business, culture, science and the environment relate on the international stage. Join Glendon grads working in prominent organizations such as the Canadian Foreign Service, Oxfam and the United Nations. Glendon offers a degree without borders — whether with our unique iBA, an international exchange or internship, or by coordinating our award-winning International Studies Symposium. **Career paths include: social policy analyst, international development officer, foreign relations specialist.**

Linguistics, Language and Society / Linguistique, langue et société

(BA)

Linguistics, Language and Society examines the building blocks of languages, how they develop over time, how people learn languages, how regional accents differ and more. Our professors are experts in the study of sound properties, word patterns, meaning, language evolution and the relationship between language and social factors. Hands-on opportunities include language teaching practicums in Cuban classrooms with our D-TEIL Certificate or working with the Ojibwa community of Toronto. **Career paths include: artificial intelligence specialist, sign-language interpreter, neurolinguist.**

Mathematics / Mathématiques

(BA)

Glendon's Mathematics program will develop your knowledge in pure and applied mathematics, including linear and modern algebra, mathematical analysis, topology and geometry, probability and statistics, and the mathematics of investment and of actuarial science. Combine your studies with courses or internships in Economics, Linguistics, Psychology, Business Economics and more for a versatile education that opens doors to a range of professions. **Career paths include: business analyst, statistician, math teacher.**

Political Science / Science politique (BA, iBA)

F W ⚙️ 📖 🤝 🔍

Our program employs dynamic, innovative teaching methods – we discuss the major issues of our times, including democracy, human rights, peace and security, the environment, the fight against poverty and more. Our bilingual or trilingual iBA options will position you well in a competitive global marketplace. Our grads' success is boundless: they get into some of the best graduate programs in political science around the world. **Career paths include: political commentator, federal relations director, government policy analyst.**

Psychology / Psychologie

(BA, BSc, iBA, iBSc)

F W ⚙️ 📖 🤝 🔍

Explore topics including neuropsychology, crime and the justice system, perception, psychological injury and law, prejudice and aging with the top experts in those fields. Considering

medical school or graduate studies? Professors will get to know you through our small classes which can result in strong academic support and reference letters. You'll apply your learning in our perception lab and through internships, practicums and part-time jobs with healthcare beacons like Sunnybrook Hospital. **Career paths include: psychologist, professional counsellor, human resources professional.**

Sociology / Sociologie (BA, iBA)

F W 📖 🤝 🔍

Sociology is the study of our social world – of our lives as individuals, how people connect, how societies are organized and how they change over time. With our bilingual focus and our internships, exchanges and internationally oriented degrees, our graduates have the ability to apply sociological perspectives to topics such as gender, deviant behaviour and family, and to apply them to careers in public policy, law, communications, teaching, activism and more. **Career paths include: human rights officer,**

social policy researcher, non-governmental organization executive director.

Professional Translation / Traduction professionnelle

(BA, iBA)

F 🌙 ⚙️ 📖 🤝 🔍

Unique in Southern Ontario, our program addresses a significant shortage of English and French translators in Canada. Our graduates work for the United Nations, the Government of Canada, law firms, publishing houses and more. They also have careers in editing, writing and teaching. As a Professional Translation student, you'll obtain a free membership to the Association of Translators and Interpreters of Ontario with access to all its services, job postings, workshops and networking opportunities. Our Accelerated Honours BA in Professional Translation is available for those who already hold an undergraduate degree. **Career paths include: translator, blogger, media correspondent.**

Global Health (BA, BSc)

F [book icon] [hand icon] [magnifying glass icon] [gear icon]

The COVID-19 pandemic, climate change and growing rates of obesity and diabetes are examples of global health challenges that do not recognize borders. Our health and that of the rest of the world’s population is intertwined with broader issues, including population growth and migration, wealth disparity, environmental degradation, corporate activity and government policy. Health not only involves the absence of disease, but also the promotion of physical, mental and social well-being – with keen attention to how the conditions that ensure health and health equity require positive health practices on both an individual and societal level. **Career paths include: healthcare manager, NGO leader, health data analyst, policy researcher, physician*, nurse* (*with further postgraduate training).**

Health Policy, Management & Digital Health (BHS)

F W [gear icon] [book icon] [hand icon] [magnifying glass icon]

Students in the Specialized Honours Bachelor of Health Studies (BHS) in Health Policy, Management & Digital Health are exposed to a wide-ranging suite of health policy, health management and digital health courses. Health Policy provides a strong interdisciplinary theoretical foundation drawing from political science, political economy, law, sociology, gender studies and ethics to critically assess social, cultural and health systems and contribute to policy research, development and implementation at all levels of society and within health systems. Health Management provides a systems approach to understanding

the organization and delivery of healthcare as well as how to approach problem solving and decision making to improve quality, safety, effectiveness, and equity in health systems. Digital Health provides a theory and application-based education in information management, digital health solutions, interoperable health information systems, and current debates in health informatics/digital health to support leading edge health systems. Students in the 4th-year Specialized Honours can get hands-on experience through a field placement in a variety of healthcare settings (HLST 4990 Health Studies Practicum). **Career paths include: health care manager, data analyst, digital health specialist, policy researcher / advisor.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry [laptop icon] Some online courses [moon icon] Some evening/weekend courses

Health Studies (BHS)

Study health systems performance and leadership (Health Management), the importance of data and information analysis (Digital Health), or healthcare decision making (Health Policy). In addition to taking courses in management, digital health and policy, students study the breadth and depth of health and healthcare through a wide variety of issues and social contexts (such as social status and disability, homelessness), including case studies in healthcare in the community. Societal factors that determine why some people stay healthy and others become ill are also examined such as income, stress, early life, social exclusion, work conditions, unemployment, social support, mental health, addiction, food and transportation. Health Studies offers students the flexibility to attain a double major or do a minor in other Faculty of Health or York programs. The program also provides students with the flexibility to take additional prerequisites for postgraduate study in a professional program (e.g., medicine, law) or graduate school. **Career paths include: health policy researcher/advisor, health care manager (HR, finance, systems), health information specialist.**

Kinesiology & Health Science

(BA, BSc)

York's Kinesiology & Health Science program was ranked among the top ten programs in Ontario by the 2022 Shanghai Ranking's Global Ranking of Sport Science Schools and Departments. Understand physical

activity and its importance for human health, health science and society. Enjoy more course selections, taught by full-time faculty, than any other university in Canada. Research and experiential education opportunities are available in class, in labs and in the community. **Career paths include physician*, physiotherapist*, occupational therapist*, registered kinesiologist, recreation manager, health and fitness trainer** (*with further post-graduate training).

Neuroscience (BSc)

This interdisciplinary program takes advantage of York's expertise in the neurosciences. Investigate the development, structure and function of the nervous system, including the ways it can change - whether naturally or through human intervention. From cellular/molecular to cognitive/behavioural to whole neural systems, choose the stream that best suits your interests as you attain hands-on research proficiency with a stimulating capstone experience in fourth year. **Career paths include: physician*, medical specialist*, research assistant/associate in academia, health care/industry/rehabilitation counsellor*** (*with further post-graduate training)

Nursing (BScN)

York's School of Nursing offers three BScN options at York's Keele campus: a 4-year Direct Entry program, a Second-Entry program and a Post-RN Internationally Educated Nurses program. Our programs develop reflective and socially responsive

practitioners to ensure health for all through nursing excellence. Students learn to partner, advocate and lead in the provision of care through opportunities that foster in-depth knowledge, critical thinking and lifelong scholarship. **Career paths include Registered Nurse, health care manager, home health care provider, hospital tertiary care provider (ICU, pediatric, etc.) nursing professor*, public health nurse** (*with further post-graduate training).

Psychology (BA, BSc)

Join one of the top 10 psychology programs in Canada, ranked 4th in Canada by QS World University rankings 2023. Choose from a wide variety of study topics such as autism, eating disorders, bullying, developmental, social and rehabilitation psychology, motivation, neuroscience, depression and more. Students have the opportunity to gain a credential in one of six Psychology Concentrations: Counselling and Mental Health; Psychological Humanities, Contexts & Communities; Child and Youth Development; Applied Methods and Analysis; Neuropsychology; Aging and Late Life Development. Research and hands-on experiential education opportunities are available on campus (in-class, labs) and in the community. **Career paths include: behaviour analyst*, psychologist*, lawyer*, teacher*, child and youth worker, human resources manager*, marketing manager, policy advisor** (*with further post-graduate training).

Lassonde School of Engineering

yorku.ca/discover/lassonde

Want to create a better world? So do we! The Lassonde School of Engineering empowers students like you to put ideas into action that will push the world forward. We are shaping the next generation of creators who will tackle the world’s biggest challenges and find creative solutions to global problems.

At Lassonde, you’ll get the chance to explore new ideas and gain perspective from the real world. As an aspiring engineer, scientist or innovator, you’ll learn how you can turn ideas into reality. All our programs focus on helping you build a strong foundation in your first year while giving you an opportunity to develop and strengthen your passions. Lassonde offers a co-op option across all our programs in addition to an entrepreneurship incubator, student clubs, prototyping spaces and more — all designed with you in mind.

“My journey at Lassonde has been deeply fulfilling. During my time at York, I have been able to accomplish innovative and important work in Software Engineering through theoretical knowledge, the chance to participate in the York Engineering Competition, experiential learning opportunities and much more. As I look forward to graduation, I am excited to continue building and applying my software development skills as a professional.”

Greatlove Bariboloka (she/them), 4th year Software Engineering

- Meteorology

Civil Engineering (BEng)

From soaring skyscrapers and breathtaking bridges to innovative clean water technologies— the impact of Civil Engineering on the world is immense. The mission statement of civil engineers is to build a better quality of life while safeguarding the environment. Whether you are designing transportation

systems, earthquake-resilient structures and foundations or protecting our natural and built environment, civil engineers help create vibrant and sustainable communities. **Career paths include: structural engineers, environmental and remediation engineers, flood risk engineers.**

ICONS LEGEND:  Fall entry  Winter entry  Summer entry  Some online courses  Some evening/weekend courses
 Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

Computer Engineering (BEng)

F W 

Computer Engineers play a big role in how we interact with the world – both at work and at home. From software and gaming to cyber security and simulators, computer engineers help shape our technology-driven world. When you study computer engineering, you will be at the intersection of hardware and software design, becoming qualified to work on computer systems and develop computing solutions to engineering problems. Systems blending hardware and software such as self-driving cars, robotics and mobile devices, form the basis of our world and are all built by Computer Engineers. **Career paths include: robotics engineer, biomedical instrumentation specialist, virtual reality developer.**

Computer Science

(BA, BSc, iBA, iBSc) F W  

From virtual reality and artificial intelligence to robotics, network databases and vision systems, Computer Science plays a big part in solving some of the world's greatest challenges. In this program, you will blend foundational knowledge and technical skills to explore intriguing topics such as computer systems that mimic human vision or mine data for useful information. You will also learn about the methodologies that lead to efficient, accurate computation. In the BA degree, liberal arts complement your studies in computer science, and in the BSc, you'll take science courses such as physics, chemistry and biology. The iBA, iBSc or the dual-degree option add an international component to your learning. Plus, you can enhance your degree with a co-op or an industrial internship. **Career paths include: software and network developer, data scientist, cloud computing specialist.**

Computer Science for Software Development (BASC)

F 

Offered at Markham Campus

In a world that is increasingly dependent on computer technology, we need creators who can put ideas into action that create a better society. Our Computer Science for Software Development program will give you the tools you need to build a strong foundation and put your learning into practice. The technical focus of this program is on software development, and you'll have the option of specializing in areas such as cloud computing, cybersecurity and data science. In addition to developing in-depth technical knowledge and skills, you'll learn about privacy, ethics, law, social and economic responsibilities and their applications in computing. **Career paths include: computer systems analyst, software developer, machine learning specialist.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry  Some online courses  Some evening/weekend courses
 Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

Computer Security (BA, BSc)

F W ☾ 📁

A degree in Computer Security provides you with a skillset to kick-start your career as a leading expert in protecting key infrastructures such as banks, transportation, electrical grids, hospitals, and schools - which all rely on security to function safely. You will learn how to assess the cyber security risk and mitigate possible security threats in software, networks, databases, Internet-of-Things (IoT) devices and other computer systems.

Career paths include: user experience and interface designer, game developer, special effects expert.

Digital Media (BA) F W S ☾ 📁

As a Digital Media student, you will devise and use tools to create thought-provoking and engaging, interactive digital objects and experiences that integrate imagery and sound, including effects and animation, 3D modelling and simulation and responsive interfaces bridging the physical and digital worlds. You can specialize in Digital Media Development, Digital Media Arts or Digital Media Game Arts and focus on the study of interactive environments, interdisciplinary theories, and social and cultural impact. Learn how to use programming as a tool for creative expression and develop digital objects and experiences like mobile apps, gaming technology and immersive VR/AR experiences.

Career paths include: user interface and user experience (UI/UX) designer, game developer, special effects expert.

Digital Technologies (BASC) F 📁

Offered at Markham Campus

Imagine earning a full-time salary as part of a four-year job with a portion of your work time allocated to study for a Bachelor of Applied Science (BASC) in Digital Technologies degree at York University. Designed with companies like IBM, RBC and Shopify, the program provides you with a combination of both work-based and academic experiences that will give you a competitive edge upon graduation. There's an exciting, rewarding world that awaits Digital Technologies degree graduates! They're creators designing, developing, analyzing and maintaining a wide range of digital solutions that make our lives easier and the world a better place. **Career paths include: application developer, information management specialist, data scientist, systems designer.**

Earth & Atmospheric Science

(BSc) F W ☾ 📁

Are you passionate about addressing major global challenges from Earth to outer space? If you're curious about the world around you and interested in climate change, extreme weather and satellite and ground-based remote sensing, this is the perfect program for you. In the Earth and Atmospheric Science program, you'll study the processes driving severe weather and global climate change. You'll learn about Earth system science, weather forecasting and future climates and develop skills in Geographical Information Systems and data analysis. You'll explore planetary environments with professors who are participating in international space missions. Enhance your degree with a Certificate

in Meteorology, to prepare for a career with Environment and Climate Change Canada and environmental consulting companies. **Career paths include: meteorologist, atmospheric scientist, climate scientist.**

Electrical Engineering (BEng)

F W 📁

From modern telecommunication systems to renewable power generation or medical devices, electrical engineers develop technologies that make a huge impact on the world across many industries. Go from creative to creator and harness physics and mathematics to gain in-depth knowledge of power electronics, signal processing, assistive medical devices and more. **Career paths include: power and energy engineer, medical device developer, wireless engineer.**

Engineering & International Development Studies (BA, BEng)

F W 📁

Are you passionate about using the power of engineering to help solve challenges on an international scale? With this program, you will learn how you can help international communities improve water sanitation or create sustainable cities. Explore our five-year BEng and BA dual-degree in Engineering & International Development Studies. **Career paths include: development engineer, international project planner.**

First Year Engineering Core Program F W 📁

Offered at Markham Campus

While you learn engineering fundamentals in applied mathematics, physical sciences, programming and more, the common first-year allows you

ICONS LEGEND: F Fall entry W Winter entry S Summer entry 📁 Some online courses ☾ Some evening/weekend courses
⚙️ Practicum 📁 Co-op or internship 📖 Class-focused 🧑 Community-focused 🔍 Faculty research

to explore the variety of engineering majors available, before you commit to a particular area for your second year. The first-year program provides information and examples from all engineering disciplines, giving you time to explore your passions and find your fit. The Engineering Core First-Year is available at both the Markham (Fall entry) and Keele (Fall and Winter entry) campuses.

Mechanical Engineering (BEng)

F W 

Mechanical Engineering is one of the broadest engineering disciplines where you can develop a wide range of technical skills and knowledge to complete diverse engineering tasks that will teach you how to make a positive impact on the world and create a cleaner environment. This multidimensional discipline includes design engineering, renewable

energy, developing medical diagnostic devices, advanced manufacturing and materials, robotics and automation. **Career paths include: design and manufacturing engineering, robotics and automation specialist, energy and power production systems specialists including renewables.**

Software Engineering (BEng)

F W 

Software is essential to the modern world, ranging from medical devices, nuclear power plants and airlines to huge corporations like Google and Amazon. Our Software Engineering program prepares you for a career using state-of-the-art computing labs, a full suite of software development tools and hands-on experience in the design and development of software products. Learn to build complex systems that are safe and reliable for a range of

technologies — from IoT devices to massive data centres. **Career paths include: software developer, full-stack developer, cyber security engineer.**

Space Engineering (BEng)

F W 

New frontiers offer new challenges. Our Space Engineering program will equip you with the technical skills required to design solutions to Earth's problems. You will combine unique technical skills and space-based assets while utilizing the principles of systems engineering to make an impact. Learn from real space missions, starting with initial concept design leading to hardware and software design, manufacturing, testing and in-orbit operations. **Career paths include: space engineer, robotics and automation engineer, remote-sensing specialist.**

Faculty of Liberal Arts & Professional Studies (LA&PS)

yorku.ca/discover/laps

Study what you love and learn what you need. The Faculty of Liberal Arts & Professional Studies (LA&PS) offers flexible degree options, allowing you to blend two areas of study for a double major, focus on one area with a specialization, enhance your learning through an interdisciplinary degree or explore your unique interests through individualized learning in a supportive environment.

“I had an opportunity to develop my leadership skills as part of the LA&PS Dean’s Circle of Student Scholars. During this time I got my first voluntary job as a staff writer for York’s New College newsletter. Through these and other co-curricular experiences in my Faculty, I have grown more confident and strengthened my marketable skills. I feel ready to tackle problems and access available resources.”

Nusaiba Mustafa (she/her), 4th year Commerce

Certificates Offered

- Accounting
- Advocacy & Public Engagement
- Anti-Racist Research & Practice
- Black Canadian Studies
- Canadian Business for Internationally Educated Professionals
- Children’s Literature
- Cross-Disciplinary Certificate in Public History
- Culture, Medicine & Health
- Emergency Management
- Financial Planning
- Gender & Women’s Studies

- Health Services Financial Management
- Hebrew & Jewish Studies (Advanced)
- Human Resource Management
- Human Resource Management for Internationally Educated Professionals
- Indigenous Studies
- Information Technology Auditing & Assurance
- Information Technology for Internationally Educated Professionals
- Investment Management
- Jewish Studies

- Language Proficiency: Chinese, French, French for Business, German, Italian, Japanese, Modern Greek, Modern Hebrew, Modern Korean, Portuguese, Spanish
- Law & Society
- Logistics
- Management
- Marketing
- Practical Ethics
- Public Administration & Law
- Public Policy Analysis
- Refugee & Migration Studies
- Sexuality Studies
- Teaching English to Speakers of Other Languages (TESOL)

Anthropology (BA, iBA)

F W S

Explore how people are subjected to, participate in and contest living in a world interconnected by powerful economic, cultural and technological forces. Gain the tools necessary for critical analysis of our place in the social and cultural diversity of the world.

Career paths include: development officer, foreign affairs worker, educator.

African Studies (BA)

F W S

Learn more about the social, political, economic and cultural development of Africa from pre-colonial times to present day. Re-imagine Africa and its diasporas in terms of their evolution and the advancement of humanity, centrality to world history and as sites of knowledge production. **Career paths include: diplomat, international development officer, policymaker.**

Business & Society (BA)

F W S

Gain an in-depth understanding of the impact of business on society and the relationships between business, social structures and government. Blend philosophical, historical, economical, geographical, sociological and political approaches to studying the relation between business and society.

Career paths include: non-profit business manager, public servant, business professional.

Business Economics (BA)

F W S

Learn strategic thinking necessary for understanding the role of business and government in the economy. Use economic reasoning to evaluate the effects of government policies on business and predict the consequences of alternative policy choices. **Career paths include: banker, financial analyst, strategic planner.**

Children, Childhood & Youth (BA)

F W S

This program takes a child-centred and children's rights-based approach to this field of study. Our interdisciplinary and humanities-based approaches include courses from sociology, psychology, literature, history, anthropology and human rights and equity studies.

Career paths include: children's rights advocate, teacher, international development worker.

Classical Studies/Classics (BA)

F W S

Explore the cultures of Ancient Greece and Rome. Pursue a Classics degree focusing on the Greek and Latin languages or opt for Classical Studies, which explores Greek and Roman literature. **Career paths include: archivist, author, archaeologist.**

ICONS LEGEND: Fall entry Winter entry Summer entry Some online courses Some evening/weekend courses Practicum Co-op or internship Class-focused Community-focused Faculty research

Cognitive Science (BA)

F W S

Examine the nature of thought, memory, perception and language. Focus on areas like AI, linguistic development, comparative cognition and philosophical psychology.

Career paths include: neuroscientist, speech pathologist, educator.

Commerce (BCom)

F W S

Gain practical business experience in one of the largest undergraduate business programs in Canada. Stand out to your future employer with one of eight streams: accounting, finance, marketing, management, supply chain management, business research, technology management and human resources management. **Career paths include: investment and financial analyst, professional accountant, human resource advisor.**

Communication & Media Studies (BA, iBA)

F W S

Gain sound analytical skills to apply a critical lens to mass media and communication. Learn to question, analyze and creatively reflect on communication mediums. Learn how culture and media are intrinsically intertwined, from the expression of identities and social relations to the circulation of ideas and the shaping of social and political values. **Career paths include: media creator, media researcher, social media manager.**

Communication, Social Media & Public Relations (BA) F

Offered at Markham Campus

A new stream in the existing Bachelor of Arts program in Communication & Media Studies, this program will equip students with a theoretical foundation in communications and media studies,

while focusing on emerging scholarship in social media and public relations.

Career paths include: public relations specialist, social media manager, communications officer.

Creative Writing (BA) F W S

We believe good writing can be taught and that good writers can be trained to be better writers. Our faculty are all published writers with vast experience in a variety of genres. **Career paths include: editor, novelist, poet.**

Criminology (BA) F

Get the tools essential for understanding the complexities of criminal justice issues and how these are shaped by larger social, political, economic, cultural and historical contexts. **Career paths include: lawyer, police officer, community outreach worker.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry Some online courses Some evening/weekend courses Practicum Co-op or internship Class-focused Community-focused Faculty research

Disaster & Emergency Management (BDEM)

F W S    

Learn how to better understand and mitigate potential disasters. Students examine topics such as business continuity planning, emergency and disaster risk management, crisis communications, ethics and terrorism.

Career paths include: business continuity planner, disaster recovery coordinator, emergency manager.

East Asian Studies (BA)

F W S 

Learn the important cultural and historical contexts needed to work and thrive in the growing economies of East Asia. **Career paths include: foreign service officer, international development worker, language educator.**

Economics (BA) F W S

We equip you with the skills to understand contemporary economic problems in various national and international markets. Gain the analytical skills necessary for understanding and solving complex economic problems. **Career paths include: economist, market analyst, policy adviser.**

English (BA) F W S

We offer a full range of English literature courses from the medieval period to the present, with strengths in contemporary poetry, popular literature, Canadian, American, African, South Asian and Caribbean literatures. **Career paths include: editor, writer, public relations officer.**

English & Professional Writing

(BA) F W S  

The only dual qualification program of its kind in Canada, this program blends English & Professional Writing into a single degree program that highlights and enhances the relationship between the two fields of study.

Career paths include: advertising and marketing professional, corporate communication, digital media specialist.

Entrepreneurship & Innovation

(BCom) F   

Offered at Markham Campus

A new stream in the existing Bachelor of Commerce program offered by the School of Administrative Studies in LA&PS, this program will bridge traditional business theories and perspectives with emerging entrepreneurial pedagogy, while also exploring innovation strategies in diverse organizations. **Career paths include: entrepreneur, business consultant, venture capital manager.**

Financial & Business Economics

(BA) F W S    

Study the financial sector and build your skills in monetary economics, banking, finance and financial data analysis. You will also learn about the economic framework that underpins financial theory. **Career paths include: consultant, corporate financial manager, investment banker.**

Financial Technologies (BSc)

F    

Offered at Markham Campus

Financial technology is a rapidly expanding industry. This unique program responds to industry needs for students fluent in finance and new technologies. Students will combine computing and information technology training with economics and finance education to prepare for a career in technology-intensive roles.

Career paths include: financial data analyst, wealth technology developer, cryptocurrency specialist.

French Studies (BA, iBA)

F W S   

Explore French literature, language, linguistics and francophone culture in Canada and throughout the world. All our courses are taught in French, and your language proficiency will be assessed when you enrol. **Career paths include: public servant business and development professional, educator.**

Gender & Women's Studies (BA)

F W S   

Learn to analyze and identify intersections of gender, race, class, age, ability and sexuality as they operate in popular culture, everyday life, art, science, law, politics, economics and societies. **Career paths include: political activist, educator, women's and human rights advocate, community support worker.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry  Some online courses  Some evening/weekend courses  Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

German Studies (BA, iBA)

Immerse yourself in the German language and its rich culture, including literature, film studies, political science, history, urban studies, art history and women's studies. **Career paths include: cultural institution worker, diplomat, educator.**

Global Political Studies (BA)

Learn diverse ways of thinking about 'the global' and globalization, as well as political community; diversity and inequality; and transformations in global, regional and domestic politics. **Career paths include: diplomat, nongovernmental organization worker, public servant.**

Health & Society (BA)

Develop the tools to understand health and illness, both as lived realities and as reflections of larger social, cultural and political processes. Examine how globalizing economies shape illness and health care, and learn to appreciate the role played by social forces and cultural change in shaping individual well-being. **Career paths include: community health advocate, healthcare worker, public health officer.**

Hellenic Studies (BA)

Explore past and present through Greece's language, literature, culture and history, as well as a range of other Humanities and European Studies courses. Study issues including immigration, citizenship and identity. **Career paths include: business manager, educator, researcher.**

History (BA, iBA)

Explore thousands of years of history in Africa, Asia, Europe and the Americas and explore themes such as the immigrant experience in Canada, native history and global migration. **Career paths include: educator, journalist, lawyer.**

Human Resource Management (BHRM)

Study organizational behaviour, career management, industrial and labour relations, compensation, talent management, work law and labour policy. Benefit from our many in-class and community-focused learning opportunities. **Career paths include: human resource professional, corporate coaching and training, compensation analyst.**

Human Rights & Equity Studies

Examine human rights principles, the causes and impact of human rights violations and efforts to redress inequities. Understand physical, social and economic security, cultural autonomy, political rights and fundamental freedoms. Discover the foundational concepts behind human rights and examine what constitutes rights violation. **Career paths include: international human rights worker, refugee and migrant advocate, trade union equity officer.**

Humanities (BA, iBA)

Learn how people from various times and places have expressed cultural values, practices, and ideas of a philosophical, religious, moral, political and aesthetic nature. **Career paths include: advertising executive, educator, journalist.**

Indigenous Studies (BA)

Indigenous Studies draws on Elder teachings, ceremonies and theories developed by Indigenous scholars to explore the multiple experiences of Indigenous communities in Canada and worldwide. The program also examines treaty rights and relationships. **Career paths include: policy analyst, community worker, land claims negotiator.**

Information Technology

Learn from research-driven faculty and industry professionals experienced in dynamic areas such as information retrieval, business analysis, cloud computing, IT strategy, data analytics, IT project management and information visualization. Gain knowledge about how information systems are analyzed, designed, built, deployed and maintained within and across organizations. **Career paths include: business analyst, IT manager, IT consultant.**

ICONS LEGEND:  Fall entry  Winter entry  Summer entry  Some online courses  Some evening/weekend courses  Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

Interdisciplinary Social Science

(BA) **F** **W** **S**  

Explore diverse topics and methods, and examine issues like inequality and the effects of power, climate change and settler colonialism through critical perspectives. Learn about issues related to social and political thought, social justice and diversity, sustainability and global development.

Career paths include: social policy worker, journalist, social advocate.

International Development Studies

(BA) **F** **W** **S**    

Explore the foundations of international development theory and how these theories translate into the practice of helping those in need. This program will challenge you to analyze colonialism and the developing world, the gap between rich and poor nations and the social, cultural, economic and political elements of international development case studies.

Career paths include: international development professional, officer in a non-governmental, governmental or international agency, teacher.

Italian Studies (BA, iBA)

F **W** **S** 

Explore the richness and vitality of Italian culture and its contribution to the foundation of Western civilization. You will learn more about Italian visual arts, music, theatre and philosophical and political thought.

Career paths include: international lawyer, foreign service worker, international trade expert.

ICONS LEGEND: **F** Fall entry **W** Winter entry **S** Summer entry  Some online courses  Some evening/weekend courses
 Practicum  Co-op or internship  Class-focused  Community-focused  Faculty research

Jewish Studies (BA)

Examine Judaism as a religion and explore Jewish texts, histories, sociologies, languages and fine arts from biblical times to the present. Benefit from our small group of dedicated, award-winning faculty members. **Career paths include: educator, social worker, community service worker.**

Law & Society (BA)

Drawing from fields like philosophy, anthropology and criminology, you'll focus on critical thinking, research and analysis. Gain a more profound knowledge of the law, how it has impacted the course of history, and its role in society today. **Career paths include: lawyer, legal assistant, community worker.**

Linguistics (BA)

Learn how language is naturally organized. Investigate sound and word patterns, sentence structure, syntax and language usage. Discover how children acquire language without formal instruction. Dive into the relationship between language and the mind—what happens in our brains when we speak. **Career paths include: educator, speech/language pathologist or audiologist, lawyer.**

Philosophy (BA)

Covering views that include Western, East Asian, African and Islamic thought, our courses deliver a deep understanding of philosophy. You'll explore how the concepts of freedom, happiness and justice have evolved over time. The program's interdisciplinary

approach will help you understand various contemporary challenges in applied ethics, social and political philosophy, feminist philosophy, cognitive science, philosophy of mind and argumentation theory.

Career paths include: administrator, diplomat, educator.

Political Science (BA, iBA)

Discover how to analyze social and political trends through rich, diverse courses, including global politics, political economy and power, international development and inequality, social justice, democracy and security. Explore the actions of governments, judicial systems and political parties. Learn more about important political movements and how power relations function. **Career paths include: international relations expert, lawyer, policy analyst.**

Portuguese & Luso-Brazilian Studies (BA)

Join our innovative program, the only one in the country to offer a course solely dedicated to the culture and literature of the Azores. Explore aspects of art, musical and literary expressions, history, social and political landscapes through a wealth of courses, including experiential education opportunities. **Career paths include: educator, foreign service worker, international development expert.**

Professional Writing (BA)

Gain the type of practical experience highly sought after by prospective employers and discover inventive

approaches to writing that keep pace with cultural, social and technological changes. **Career paths include: publisher, media professional (journalist, editor), digital media specialist.**

Public Administration (BPA)

This program aims to provide students with “education for good governance.” With a strong emphasis on social justice and public ethics, students take courses from a mix of disciplines to develop critical thinking, analytical capabilities and management skills. **Career paths include: public servant, public sector manager, policy analyst.**

Religious Studies (BA)

Explore how and why humans appeal to spirituality to make sense of themselves and their world. We apply a religious lens to history, anthropology, political science, literature and cultural studies. **Career paths include: lawyer, educator, social worker.**

Sexuality Studies (BA, iBA)

Understand sex and sexuality from intersectional, transnational, global, decolonial and historical perspectives. Explore sexuality and its effects on individuals and society. **Career paths include: healthcare worker, political activist, social worker.**

Social Work (BSW)

Combine practical experience with in-class studies about critical social work perspectives and approaches with our social work program – recognized

ICONS LEGEND: Fall entry Winter entry Summer entry Some online courses Some evening/weekend courses Practicum Co-op or internship Class-focused Community-focused Faculty research

as one of the most progressive and socially responsive programs in Canada.

Schulich School of Business

yorku.ca/discover/schulich

Balance business and the public good. The Schulich School of Business invites you to discover the best undergraduate business education in Canada. Enjoy a rich and rewarding environment where you are constantly challenged by award-winning faculty, cutting edge curriculum and the passionate drive of your classmates. Responsible business is a priority as we create positive change. That’s why ethical considerations are embedded within Schulich’s curriculum and experiences, with a goal to develop leaders who understand how to balance business and the public good.

“I chose York because of its prestigious business Faculty, which provides students with amazing networking opportunities and life-long skills to apply in the complex world of business. I took coaching sessions from Schulich’s Student Services team to improve my academics and build the confidence I needed to succeed.”

Dwayne Adamah (he/him), 4th year BBA student

Certificates Offered

- International Management (CIM)

Business Administration

(BBA) **F**

Join Schulich’s honours degree program — the Bachelor of Business Administration (BBA) for a challenging and rewarding full-time course of study. Develop critical thinking and analytical skills while establishing a solid foundation in business concepts, ensuring that when you graduate you will have the skills and knowledge

necessary for success in today’s global marketplace. Students can choose from 11 areas of specialization to help meet their unique career objectives.

Career Paths include: financial analyst, sustainability consultant, EDI specialist, CPA, brand manager.

Schulich School of Business Master of Management Program

The **Pathway to Master of Management Program (PMMP)** allows high-achieving students to acquire four years of specialized knowledge in their under-

graduate program of interest, then grow their business expertise with a one-year MMgt degree. The five-year program structure is designed to prepare graduates for new career opportunities, post-graduation. The PMMP program is available to students admitted to non-business programs in the Faculty of Environmental and Urban Change, Faculty of Health, Faculty of Liberal Arts & Professional Studies, Faculty of Science, Lassonde School of Engineering, School of the Arts, Media, Performance & Design (AMPD) and Glendon.

Faculty of Science

yorku.ca/discover/science

Develop a scientific mindset. Join one of Canada’s leading science faculties. Our personalized attention, support and innovative teaching methods help you achieve your highest potential. You will learn by solving problems, seeking advice from instructors, interacting with knowledgeable peer mentors, designing and running experiments with faculty support and debating in small group seminars. Develop a scientific mindset that is valued by employers in all sectors and join a collaborative community that shares your curiosity and passion.

“The opportunity to enhance my classroom learning with hands-on laboratory skills has been the highlight of my degree. I have engaged in experimental design to solve real-life problems and presented my work at the York Undergraduate Research Conference.”

Areeba Chaudhry (she/her), Biomedical Science graduate '23

Certificates Offered

- Actuarial Science

Actuarial Science (BA)

F W S ☾ 📦

Join our personalized, hands-on program in the growing field of financial risk management and learn to foretell an uncertain future. Write the actuarial certification exams which are key to becoming an in-demand business professional. Take courses in mathematics, statistics, economics, finance and communications to prepare

for a successful career. **Career paths include: actuary, financial analyst, operations research and optimization.**

Applied Mathematics (BA, BSc)

F W S ☾ 📦

Learn mathematical modeling and use computer simulations and data analysis to solve real-world problems in areas such as epidemiology, high speed computing, climate change, energy storage and mathematical finance.

Career paths include: financial analyst, epidemiologist, scientific computing.

Biochemistry (BSc) F W S ☾ 📦

Study the chemistry of living organisms. Analyze the physiology and the structures, properties and changes of biomatter. Put your knowledge to use in areas like medical diagnostics, food innovation and safety, cosmetics and forensic science. **Career paths include: pharmacologist, toxicologist, biomedical researcher, nutrition and crop scientist.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry ☾ Some online courses ☾ Some evening/weekend courses
📦 Practicum 📦 Co-op or internship 📖 Class-focused 📦 Community-focused 🔍 Faculty research

Biology (BSc, iBSc) **F** **W** **S**

Contemplate life on scales ranging from the cellular to the global level. Choose from courses in biochemistry, molecular genetics and cell biology, zoology, physiology, plant science, evolution and ecology. Whatever your focus is, you'll have first-rate laboratory experiences and research opportunities. **Career paths include: physician, medical researcher, plant biologist.**

Biomedical Science (BSc, iBSc)

F **W** **S**

Understand the body on molecular, cellular and macro levels, and how this knowledge can help prevent and treat illness. Draw on different areas of life science, including biochemistry, genetics, cell biology, physiology and biotechnology. **Career paths include: microbiologist, virologist, medical technologist, medical writer.**

Biophysics (BSc) **F** **W** **S**

Delve into an exciting intersection of physics, biology and medicine, where techniques of physics are applied to living systems. Learn how lasers can diagnose and treat cancer and diseases, and how light can control neurons. Make your studies come alive with top-tier undergraduate research and internships. **Career paths include: medical physicist, radiation scientist, photonics scientist, device engineer.**

Biotechnology (BSc) **F** **W** **S**

Apply science and engineering in the innovative use of living organisms to improve the quality of our food, health and environment. Uses include the diagnosis and treatment of disease and the improvement of agricultural crops and productivity. **Career paths include: biomanufacturing scientist, regulatory affairs officer, agricultural product researcher.**

Chemistry (BSc) **F** **W** **S**

Explore the world of chemistry as it expands and advances. Pursue complex fields like protein-structure analysis, environmental and atmospheric chemistry or nanomaterials science. Take the optional stream in Pharmaceutical & Biological Chemistry to explore interactions between biological systems and chemicals including pharmaceuticals. **Career paths include: medicinal chemist, air-quality analyst, forensic scientist, food and cosmetic chemist.**

Data Science (BA, BSc) **F** **W** **S**

Study an interdisciplinary field focused on extracting knowledge from data and applying insights to solve problems. Analyze real-world data from business, health etc. and build a meaningful career in data science. **Career paths include: data scientist, machine learning engineer, data architect.**

ICONS LEGEND: **F** Fall entry **W** Winter entry **S** Summer entry Some online courses Some evening/weekend courses Practicum Co-op or internship Class-focused Community-focused Faculty research

Environmental Biology (BSc)

F W S ☾ 📖

Explore critical issues in conservation biology and biodiversity and make connections to human health, sustainability, environmental management and public policy. Integrate ecological theory and practice to predict, quantify and address the impact of stressors like habitat loss, pollutants, climate change and invasive species on living systems. **Career paths include: ecologist, invasive-species biologist, conservation biologist.**

Environmental Science (BSc)

F W S ☾ 📖

Environmental Science explores the impact of human activities on our planet through the study of biology, chemistry, physics and physical geography. You will gain a scientific foundation in the biological and physical sciences needed to address urgent environmental and urban challenges, and generate and communicate solutions. Explore the science of environmental systems through two streams: Environmental Dynamics and Biodiversity & Conservation. Benefit from internship opportunities, field and lab-based exercises and optional global experiences at York University's Las Nubes EcoCampus. **Career paths include: aquatic scientist, conservationist, environmental control specialist.**

First Year Science Program F

Offered at Markham Campus

Explore science and develop the skills that will position you for success throughout your studies in this unique learning opportunity. Studying Science Foundations in your first year at the Markham campus will provide an intimate setting to collaborate with your classmates and get to know your professors before continuing onto your second year at York's Keele Campus.

Mathematics (BA, BSc)

F W S ☾ 📖

Study the beauty of mathematics through the language of abstraction and reasoning. Join a community dedicated to the precise analysis, interpretation and improvement of our world. Learn a wide variety of topics in pure mathematics and engage in one-on-one research projects with individual faculty members. **Career paths include: economics, financial analysis, law.**

Mathematics for Education

(BA, BSc) F W S ☾ 📖

After a foundational first year, combine studies in mathematics, statistics and education, develop a wide perspective on the teaching and learning of mathematics and receive a BA or BSc in Mathematics for Education. Complete your teacher qualification with a BEd from York. **Career paths include: math teacher, math education researcher, educational developer.**

Neuroscience (BSc) F

This interdisciplinary program takes advantage of York's expertise in the neurosciences. Investigate the development, structure and function of the nervous system, including the ways it can change - whether naturally or through human intervention. From cellular/molecular to cognitive/behavioural to whole neural systems, choose the stream that best suits your interests as you attain hands-on research proficiency with a stimulating capstone experience in fourth year. **Career paths include: physician/medical specialist (with further education); research assistant/associate in academia or the health care industry, rehabilitation counsellor.**

Physics & Astronomy (BSc)

F W S ☾ 📖

Engage with experiment, computation and theory in quantum physics, particle physics, photonics, trapping atoms near absolute zero (unique in Canada) and astronomy from planetary to extra-galactic. Enrich your education with undergraduate research or an internship. **Career paths include: industrial physicist, photonics scientist, computational analyst.**

ICONS LEGEND: F Fall entry W Winter entry S Summer entry 📖 Some online courses ☾ Some evening/weekend courses

Financing Your Degree

Your education is an exciting investment that requires careful planning. If you are a First Nations (Status), Métis or Inuit student, you may be eligible for postsecondary financial assistance from your First Nations community, or affiliated Métis or Inuit organizations, and/or from other sponsoring organizations to help offset the costs of your postsecondary studies (e.g., tuition, supplementary fees, etc.).

- **Ontario Student Assistance Program (OSAP):** If you're an Ontario resident, apply for loans and non-repayable government grants.
- **Out-of-Province Students:** Apply for funding through your home province.
- **External Funding:** If you're a transfer or mature student, you should look to federal and provincial grants for further assistance. Part-time students, students with dependents and those returning to school for skills development may be eligible for various grants.
- **Scholarships, Bursaries and Awards:** You can apply for York University's financial award, without an offer of admission.
- **Campus Employment Program:** Eligible students can participate in on-campus work opportunities through York's Research at York (RAY), Work/Study and Leadership, Engagement and Ambassadorship (LEAP) programs.

Fees and Expenses

Below is a list of some expected costs for your first year. This list represents an estimate only. For course and program fees, visit go.yorku.ca/fees-indg.

After accepting your offer, domestic students are required to pay a \$300 deposit in order to enrol in courses. This non-refundable deposit is part of your tuition fee and will be credited to your student account.

2024–2025 Expenses (for two semesters)	Domestic Student (Ontario) Estimated Costs (CAD \$)	Domestic (Out of Province) Estimated Costs (CAD \$)	International Student Estimated Costs (CAD \$)
Average full-time tuition (30 credits) + compulsory supplementary fees*	\$7,200 – \$12,900	\$7,600 – \$11,300	\$34,800 – \$43,300
Textbooks and supplies*	\$1,400 – \$2,600 Varies by program	\$1,400 – \$2,600 Varies by program	\$1,400 – \$2,600 Varies by program
Residence housing (on campus)	\$7,900 – \$11,100	\$7,900 – \$11,100	\$7,900 – \$11,100
Meal Plan	\$3,300 – \$6,500	\$3,300 – \$6,500	\$3,300 – \$6,500
Health Plan	\$281	\$281	\$1,038**
Estimated Totals***	\$20,100 – \$33,400	\$20,500 – \$31,800	\$48,500 – \$64,600

* Tuition fees and costs include the fall and winter terms and vary slightly by program.

To view estimated tuition fees by program, visit go.yorku.ca/fees-indg.

** Health Plan fee includes UHIP plus York Federation of Students or Glendon plan.

*** Estimated totals are based on the 2024-25 academic year. Fees are subject to change.

Scholarships and Awards

We look forward to celebrating your achievements and supporting your success with a variety of financial awards. Some York University scholarships are automatically awarded, while others require an application – explore details and a full list of awards.

go.yorku.ca/scholarships-indg

York Automatic Entrance Scholarships

Available to domestic high-school applicants admitted to a direct-entry undergraduate program.

This entrance scholarship is automatically applied, renewable at all levels and can be regained when you recover the minimum required GPA. Recipients of this scholarship who choose to participate in an exchange program during their second, third or fourth year will also receive the York University Study Abroad Award, valued at \$1,500.

Admission Average	Total Value of Award*
95-100%	\$14,000 (\$3,500 x 4 years)
90-94.9%	\$8,000 (\$2,000 x 4 years)
85-89.9%	\$6,000 (\$1,500 x 4 years)
80-84.9%	\$4,000 (\$1,000 x 4 years)

*Available to domestic high school applicants only, admitted to a direct-entry undergraduate program.

Financial Needs-Based Awards

We award more than \$11 million in entrance scholarships and awards each year. Eligibility varies from academic achievement to specific criteria. Search the awards database to determine additional funding for which you may be eligible: go.yorku.ca/scholarships-indg. Use keywords, such as your city/region, ancestry, community involvement and academic interests.

Award Name & Type	Consideration Criteria (Complete criteria at go.yorku.ca/scholarships-indg)	Minimum Average	Value of Award
Bennett Family Award for Black and Indigenous Students 🇨🇦 ✓ 📄	<ul style="list-style-type: none"> Indigenous ancestry Resident of Ontario 	None	\$30,000* (\$7,500 x 4 years)
Entrance Bursary for Aboriginal Students 🇨🇦 ✓ 📄	<ul style="list-style-type: none"> Indigenous ancestry Resident of Ontario 	None	\$8,800 (\$2,200 x 4 years)
Indigenous Student Bursary 🇨🇦 ✓ 📄	<ul style="list-style-type: none"> Indigenous ancestry Resident of Ontario 	None	Varies with number of applicants
Alpha Foundation Bursary 🇨🇦 ✓ 📄	<ul style="list-style-type: none"> Indigenous ancestry Resident of Ontario Demonstrated community volunteerism 	None	\$1,500
Ontario Indigenous Travel Grant 🇨🇦 ✓ 📄	<ul style="list-style-type: none"> Indigenous Ancestry Resident of Ontario 	None	Varies

🇨🇦 Must be a Canadian citizen, permanent resident or protected person.

✓ Must demonstrate financial need.

📄 Application required: details at go.yorku.ca/scholarships-indg.

* Indicates that the award or scholarship is renewable for an additional three years of full-time undergraduate study, as long as you maintain high academic standing each year.

“One achievement that I’m the most proud of was being awarded a number of scholarships throughout my time in university. I was happy to see that the work I have done throughout my academic career paid off through the recognition I received with these awards. It is my hope that this serves as an example to other Indigenous youth that they are truly capable of achieving anything they put their minds to.”

Michael Cimino (he/him), BBA '22

Recipient, McKinsey Canada Indigenous Student Leadership Award
 Recipient, Award for Aboriginal Students

Indspire Scholarships

Indspire helps thousands of Indigenous learners complete their education by providing access to funding that will support their financial and educational needs. We encourage you to apply by filling out the post-secondary and bursary application on Indspire’s website. go.yorku.ca/indspire-indg

Apply for In-Course Scholarships and Awards

Once you are enrolled in classes, a single application called the Scholarships, Awards and Bursaries application is used to assess your eligibility for scholarships, bursaries and on-campus employment programs.

go.yorku.ca/sfp-indg

Academic Merit-Based Awards

Apply for awards at go.yorku.ca/myfile-indg after your application for admission is received. Awards and amounts are subject to change.

Award Name & Type	Consideration Criteria (Complete criteria at go.yorku.ca/scholarships-indg)	Minimum Average	Value of Award
Governor’s Awards of Distinction 🍁 📄 Shortlisted candidates are also considered for Awards of Achievement (\$8,000 x 4 years).	<ul style="list-style-type: none"> Accomplishments in community service, leadership, the arts or sports 	90%	\$32,000* (\$8,000 x 4 years) plus cost of residence in first year
Harry W. Arthurs Alumni Families Entrance Scholarship 📄	<ul style="list-style-type: none"> Accomplishments in community service, leadership, the arts or sports Must be the child, sibling or grandchild of a York graduate 	90%	\$24,000* (\$6,000 x 4 years)
York University President’s Scholarship 🍁	<ul style="list-style-type: none"> Automatically awarded to high school applicants (domestic and international) with the highest admission average in their Faculty at the time of assessment; no application required) 	None	\$21,600* (\$5,400 x 4 years)
York University Renewable Entrance Athletic Scholarship	<ul style="list-style-type: none"> Inquire with the head coach of your intended interuniversity team 	80%	Up to \$25,000* (\$1,000–\$5,000 x 5 years)

🍁 Must be a Canadian citizen, permanent resident or protected person.

📄 Application required: details at go.yorku.ca/scholarships-indg.

* Indicates that the award or scholarship is renewable for an additional three years of full-time undergraduate study, as long as you maintain high academic standing each year.

What You Need

go.yorku.ca/requirements-indg

Your post-secondary journey awaits! To apply to York University, complete the below admission requirements based on your academic background.

Ontario High-School Applicant Requirements	<ul style="list-style-type: none"> • Ontario Secondary School Diploma (OSSD) • Six 4U/4M courses, including ENG4U or FRA4U
College Transfer Applicant Requirements	<ul style="list-style-type: none"> • Completion of a diploma program or at least two, full semesters or one year of full-time academic study at an accredited college • Minimum overall average of 3.0 on a 4-point scale* (B/70% or equivalent), including all attempted courses
University Transfer Applicant Requirements	<ul style="list-style-type: none"> • Completion of at least four, full-year courses or one year of full-time degree studies at an accredited university • Minimum overall average of 2.0 on a 4-point scale* (C/60% or equivalent). If you are applying to an Honours-level program, a minimum overall average of 2.3 on a 4-point scale* (C+/65% or equivalent) is required
Mature Applicant Requirements	<ul style="list-style-type: none"> • If you identify as a mature student (see p. 11), you can also provide a personal statement and resumé to accompany your application

Find requirements based on your profile and current curriculum.
go.yorku.ca/requirements-indg

* If you are applying to an honours-level program, a minimum overall average of 2.3 on a 4-point scale (C+/65% or equivalent) is required. Some programs require a higher minimum overall average. Check go.yorku.ca/tr-indg for details.

Language Requirements

Programs at Keele and Markham Campus are offered in English, while programs at our Glendon Campus are offered in English and French. To gain admission, you may need to demonstrate proficiency in your program's language of instruction by presenting a minimum score on an accepted language test. To find out if you require a language test and how to submit your scores, visit go.yorku.ca/lang2025-indg.

How to Apply

1. Find Your Program and Review Admission Requirements

Visit go.yorku.ca/programs-indg to find the program you'd like to apply to. Program-specific requirements are listed on pages 51 to 56.

2. Submit Your Application

After reviewing admission requirements and prerequisites for your program of interest, submit your application through the Ontario Universities' Application Centre (OUAC) at ouac.on.ca.

After we receive your application, we will contact you via email and grant you access to view updates about your application using our online platform, MyFile.

Start Term at York	Application Deadline*
Winter 2025 (January)	November 1, 2024
Summer 2025 (May)	April 1, 2025
Fall 2025 (September)	January 15, 2025 (<i>for Ontario high school applicants</i>)
	February 3, 2025 (<i>for out-of-province and transfer/mature applicants</i>)

* Some programs have additional supplementary application deadlines. Visit go.yorku.ca/deadlines-indg for details.

3. Submit Required Documents

Once you receive access to your MyFile account, you can start uploading required documents to our system. Visit go.yorku.ca/applied-indg for document details and submission/upload instructions. Required documents may include: your high school transcript, official transcripts for post-secondary institutions attended, proof of language proficiency, supplementary information (if required) and/or post-secondary course descriptions to be assessed for transfer credit.

Your MyFile account will provide details if additional documentation is needed. Check your email account for updates to the status of your application.

Apply and Submit Documents Early

to receive full consideration to your chosen program(s) and associated scholarships.

Self-identified Indigenous students can voluntarily complete the Additional Information Form for Indigenous Applicants to provide more details on their background, lived experience and application. go.yorku.ca/addinfo-indg

Stay on Track

✓ November

Join us for Fall Campus Day on **November 2, 2024 (Keele Campus), November 9, 2024 (Glendon Campus) and November 16, 2024 (Markham Campus).**

Learn about our exciting programs, student life at York and how to start your application. go.yorku.ca/fcd-indg

✓ December

Begin applying for York entrance awards and scholarships. You do not need an offer of admission to apply. Scholarship deadlines vary but extend through April. Find out more at go.yorku.ca/scholarships-indg.

✓ January – February

Submit your application(s) to York!

Ontario secondary school applicants: Be sure to apply before the OUAC application deadline **January 15, 2025**, for equal consideration.

Submit your Supplementary Application or documentation if required for your program.

Join us and meet the York community at our Virtual Applicant Receptions on **February 20 & 26, 2025.**

✓ March – April

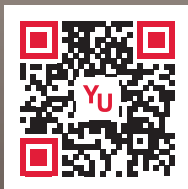

Come and say hello!

Join us for a campus tour, March Break visit or attend our Spring Open House to experience York and connect with the community. go.yorku.ca/soh-indg

✓ May – June

- Apply for guaranteed residence by **June 2, 2025** if you are an Ontario high school student and by **May 1, 2025** if you are an out-of-province high school student.
- Attend an academic advising session with your Faculty.
- Watch for details about your enrolment window to enrol in your first-year courses.
